INTRODUCTION

Cannelle was established in 2001 with a vision to grow, a will to create and contribute to society. This journey began in downtown old Dubai trading in Fast Moving Consumer Goods and Commodities. 20 years in business has helped us to identify our strengths. The company has diversified into different sectors and in different countries with specialized teams to handle each business unit. We now operate out of our office/ logistics center in the Jebel Ali Free Zone with independent offices in Iraq & India. Our focus has always been our client and we aim to provide them the best products & service. This has helped us to maintain our client base and to increase our reach all over the Middle East, Africa & the Asian Subcontinent. As policy we only deal with quality products. In the process we have created associations with reputed International Companies.

OUR VISION

Our vision is to create, grow and
Contribute to the society.

OUR MISSION

Endeavour to bring new technologies
to challenge the traditional products
that have been utilized in the market.
