

GLASSLINED WATER HEATERS

Stylish Control Knob

Temperature Display

Mounting Bracket

Venus Water Heaters : A Blend of Quality, Technology, & Innovation

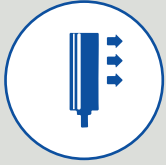

Available Capacities : 30L | 50L | 80L | 100L

Porcelain Enamel Glass Lined Tank

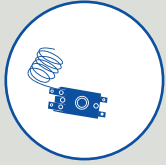

Capillary Thermostat

Sacrificial Magnesium Anode

With Power Cable

Capillary Thermal Cutout

Rust Proof Lids

Multi-function valve

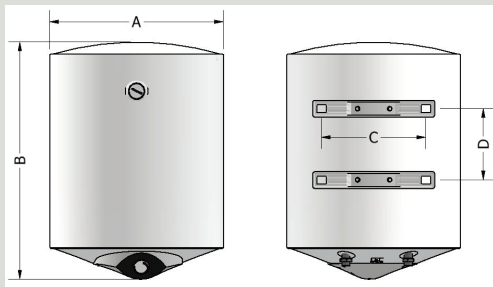

PUF Insulation

Installation guide for VVX/VHX water heaters

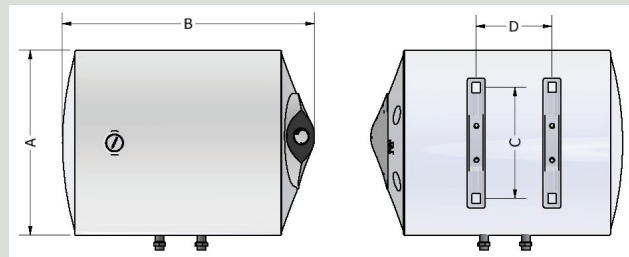

A. Installation Instructions :

Always use a qualified plumber or electrician for installing the water heater. For the installation, refer to the heater dimensions, capacity, and orientation as shown below.

For Vertical - VVX

For Horizontal - VHX

Capacity (L)	A (mm)	B (mm)	C (mm)	D (mm)
30 VVX/VHX	Ø 370	600	265	200*
50 VVX/VHX	Ø 441	605	265	181
80 VVX/VHX	Ø 441	835	265	413
100 VVX/VHX	Ø 441	995	265	560

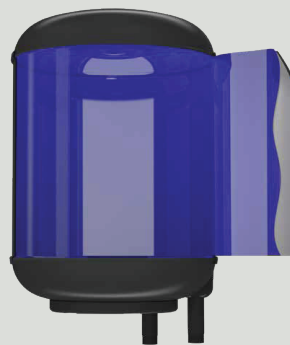

Notes :

In the VVX/VHX series, for both vertical and horizontal heaters, the Inlet, outlet union pipes are positioned downwards.

*The 30L vertical model has a single wall clamp. Measurement D (200mm) in the table is not applicable for 30VVX.

Porcelain Enamelled Glass Lined Tank

Porcelain Enamelled Glass Lined Tank: Manufactured in a modern, automated plant using European Technology. Protects the tank from rust and corrosion.

1.5 / 1.8 / 2.0 mm
Tank Thickness

Surface Treatment by
Shot Blasting

Dry Powder Enamel Coating
250 - 400µ Thickness
